2010-2011, 2013-2014	Land Cruiser	2010-2014	4Runner
2014	Highlander HV	2012-2014	Camry HV

CONDITION

Safety Connect is a vehicle option which requires a subscription fee for the system to be active. The first year of service is provided in the vehicle purchase price. Once the subscription has lapsed the DCM will be in an inactive state. In some instances, a DCM may need to be replaced even though the customer is not using the service.

RECOMMENDATIONS

The vehicle repair manual instructs the technician to perform a DCM activation after replacing the DCM. If the subscription has expired, the DCM cannot be activated because it does not have active cellular service. If a DCM is replaced and the Safety Connect subscription has expired, do NOT perform DCM activation. In this situation DCM should be installed without performing the DCM activation.

You can confirm Safety Connect status by running a vehicle inquiry on TIS which will provide Safety Connect account status.
